Seacoast United U.S. Soccer Development Academy

COACHING STAFF

Seacoast United coaches are qualified through programs run by the United States Soccer Federation, the Scottish Football Association and the English Football Association and, as a minimum, are USSF and NSCAA qualified.

They have worked with the best in the professional game in the UK, with Newcastle United and Everton in the English Premier League and with the Scottish Football Association, Gretna and Queen of the South in Scotland. The Club has a close relationship with English FA club Oxford United.

The coaching programs at Seacoast United require that the individual performance of players is recorded and monitored ensuring that high standards are set and maintained at all times.

2011/12 COACHES

US SOCCER DEVELOPMENT ACADEMY PROGRAM

As the only Club in northern New England affiliated with the US Soccer Development Academy program, Seacoast United has a history of developing great talent in the region. Seacoast United was one of first 11 of the 64 original clubs selected to be part of the Academy program when it was first formed by the US Soccer Federation in 2007.

NORTHEAST PRE-ACADEMY

The Northeast Pre-Academy League is focused on preparing U13-U15 players for the U.S. Soccer Development Academy at the U16 and U18 levels.

Like all Seacoast programs, our Pre-Academy will comply with every aspect of the national program established by US Soccer, with training organized three times per week.

The program focuses on developing the next generation of players in a competitive environment, providing direct feedback and coaching on both an individual and team basis from our qualified coaching staff.

Seacoast United aims to provide the opportunity for players to fulfill their potential - reaching the highest level possible and focusing on continuous improvement.

For some, the program will provide the opportunity for selection to attend United States Soccer Federation Training Camps with other talented players from across the United States.

US SOCCER AFFILIATION

Seacoast United is proud of its affiliation with US Soccer and the Development Academy program. This has been achieved as a result of the quality of coaching staff, standard of facilities and the heritage of the Club in our region.

Since its inception in 2007, the Development Academy has grown to 78 clubs, including programs run by Major League Soccer franchises.

As a result of this, Seacoast United is not only the sole northern New England club honored to be taking part in this process; we are also working alongside the best in the nation.

FACILITIES

Seacoast United owns and manages several first-class facilities, both indoor and outdoor. The Outdoor Complex built in 2006 in Epping, NH, boasts four full-sized FieldTurf fields (three with lights). The Indoor Arena in Hampton, home to the Club's operations, is a 69,000 sq ft facility with five indoor fields. Seacoast United also manages indoor facilities in Kingston, NH and York, ME.

English FA Division II Oxford United manager Chris Wilder commented on the Seacoast United facilities following his team's recent preseason tour to the United States:

"The facilities on offer to us at Seacoast were first class and the hospitality was fantastic. We were delighted to be there and I am sure we were the envy of many clubs back home. My players had everything they needed and were well looked after."

SUCCESS AT THE NEXT LEVEL

Seacoast United's goal is to be successful at every level possible. The U18 Development Academy squad qualified for the playoffs for the first time in its history during the 2011 season.

Over the course of the program's existence, every player to graduate from the Seacoast United 17/18 US Soccer Development Academy has played soccer at the collegiate level.

Seacoast United now manages the operations of the Seacoast United Phantoms, thus providing the opportunity for talented players to progress through our ranks to USL's Premier Development League as well as the National Premier Soccer League. The Phantoms finished the 2011 season as Northeast Division Champions and advanced to the Eastern Conference Semi-Final in just the first season under the Seacoast United organization.
